

## Perspective Lecture

UNIVERSITÀ DEGLI STUDI DI PADOVA  
Dipartimento di Ingegneria Industriale  
e  
Venetian Institute of Molecular Medicine

### BUILDING A PHARMACEUTICAL COMPANY WITH PRACTICAL SOLUTIONS TO MAKING BETTER DRUGS

**Phillip Frost, M.D.**  
Chairman & Chief Executive Officer  
OPKO Health, Inc.

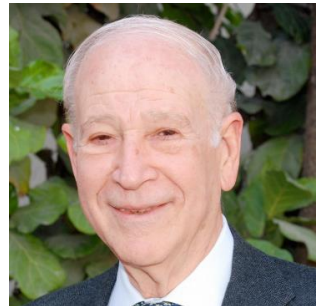

**Wednesday, May 13th, 2015**

**h 14.30**

**Aula Magna, Palazzo Bo**  
**Via VIII Febbraio, 2 - Padova**

This initiative, organized by the Dept. of Industrial Engineering and the Venetian Institute of Molecular Medicine, is part of a series of Perspective Lectures organized by the Department of Industrial Engineering with the aim to foster the development and exchange of knowledge in the academic and entrepreneurial fields.

“Making better drugs” by Phillip Frost. A kaleidoscopic view is presented of useful therapeutic products that were made even better by using a variety of technologies. Most were obvious; some, less so. But, even those that were more apparent required hard work in the development, testing, regulatory, and manufacturing steps to create commercially viable products that eventually became part of the therapeutic armamentarium to the benefit of large numbers of patients in many parts of the world.

**14.30** Registration and welcome

**15.00** Perspective Lecture

**“MAKING BETTER DRUGS”**  
**Phillip Frost, M.D.**

**16.00** Coffee break

**16.20** Meeting with young researchers  
*Coordinator: Prof. Nicola Elvassore*

**17.20** Closing remarks

#### Organizing Committee:

Prof. Nicola Elvassore, Prof. Patrizia Garengo,  
Prof. Andrea Stella

La partecipazione all’incontro è gratuita.  
Iscrizioni **entro il 12 maggio 2015** compilando  
l’adesione on line al seguente indirizzo
